Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9 and 13, drawn to DNA encoding SEQ ID NO:2, construct containing that DNA and a method of making a protein via recombinant DNA methodology.

Group II, claim(s) 1, 10-12, drawn to a protein of SEQ ID NO:2.

Group III, claim(s) 14-16, drawn to a method of preparing lysozyme sensitive bacteria via inactivation of a protein's activity.

Group IV, claim(s) 17, drawn to lysozyme sensitive bacteria derived via inactivation of a protein.

Group V, claim(s) 18-19, drawn to a method of making an amino acid..

The inventions listed as Groups I and II-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the inventive concept is utilization of specific lysozyme sensitive cells to make amino acids. Lysozyme sensitive cells are known in the art (see e.g., US patent 4681847) PCT Rules 13/1-13.2 further do not allow for multiple products and methods ..

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 1653

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Please note that for restriction purposes, claim 1 was placed into both Groups I and II as the claim is ambiguous. It is not clear whether the claim is directed to a DNA encoding a protein of either a) SEQ NO:2 or b) muteins thereof or whether it is directed to a)DNA encoding SEQ NO:2 OR b) a protein comprising muteins of SEQ ID NO:2. It is suggested that should either Group I or II be elected, that claim 1 be amended to more clearly define the subject matter.
